# INTERNATIONAL COASTAL CLEANUP™ DATA CARD

The Ocean  
Conservancy

**Thank you for participating in the International Coastal Cleanup!** The effort you are making today is the first step to ensuring there are cleaner oceans and waterways year-round. By taking the time to fill out both sides of this data card, The Ocean Conservancy will be able to compile and analyze data collected by over 300,000 volunteers in over 90 countries, and be able to identify the activities and general sources causing the debris. An annual report will then be created and distributed to help educate the public, business, industry, and government officials about marine debris issues. Your work today truly makes a world of difference.
